We are delighted to have one of our newest team members recognised for her resilience and determination in successfully completing her PhD in Computer Science at the University of Newcastle.

Sylvia joined the HVCCC team in December 2022 as a Strategic Planning Analyst, responsible for delivering value-adding insights by analyzing existing and prospective complex supply chain scenarios using HVCCC's cutting-edge simulation technology. We are looking forward to learning from Sylvia and grateful for her choosing HVCCC as her place of work.

Local tech conference /NEW on 23 March 2023

Celebrating all things technology, meeting and learning from other innovative thinkers, the local tech conference /NEW on 23 March 2023 was a wonderful opportunity for some of our team. Attending conferences like this is how the HVCCC team continues to grow professionally and learn new ways to add value for our Members.

Visit members' mine sites in the Gunnedah Basin

It's fantastic to have the opportunity to visit members' mine sites in the Gunnedah Basin to learn about their production operations. On-the-job learning experiences – hearing first-hand about day-to-day operations and coming back to the office to share insights with the rest of our team – are invaluable for ensuring that we continue providing the best possible customer service. #customerservice #learningonthejob #teamwork

The HVCCC had a competitive day raising funds for Variety - the Children's Charity NSW/ACT – Spin4Kids 2023 event on 23 March.

In between completing our normal work, our long-term fundraiser for Variety - Guy Finn - coordinated all of us to have an intensely fun day – thanks Guy!

This is another way of the HVCCC team contributing to our charity partners and having some fitness fun.
